Manager Clust-ER Innovate Regione Emilia-Romagna

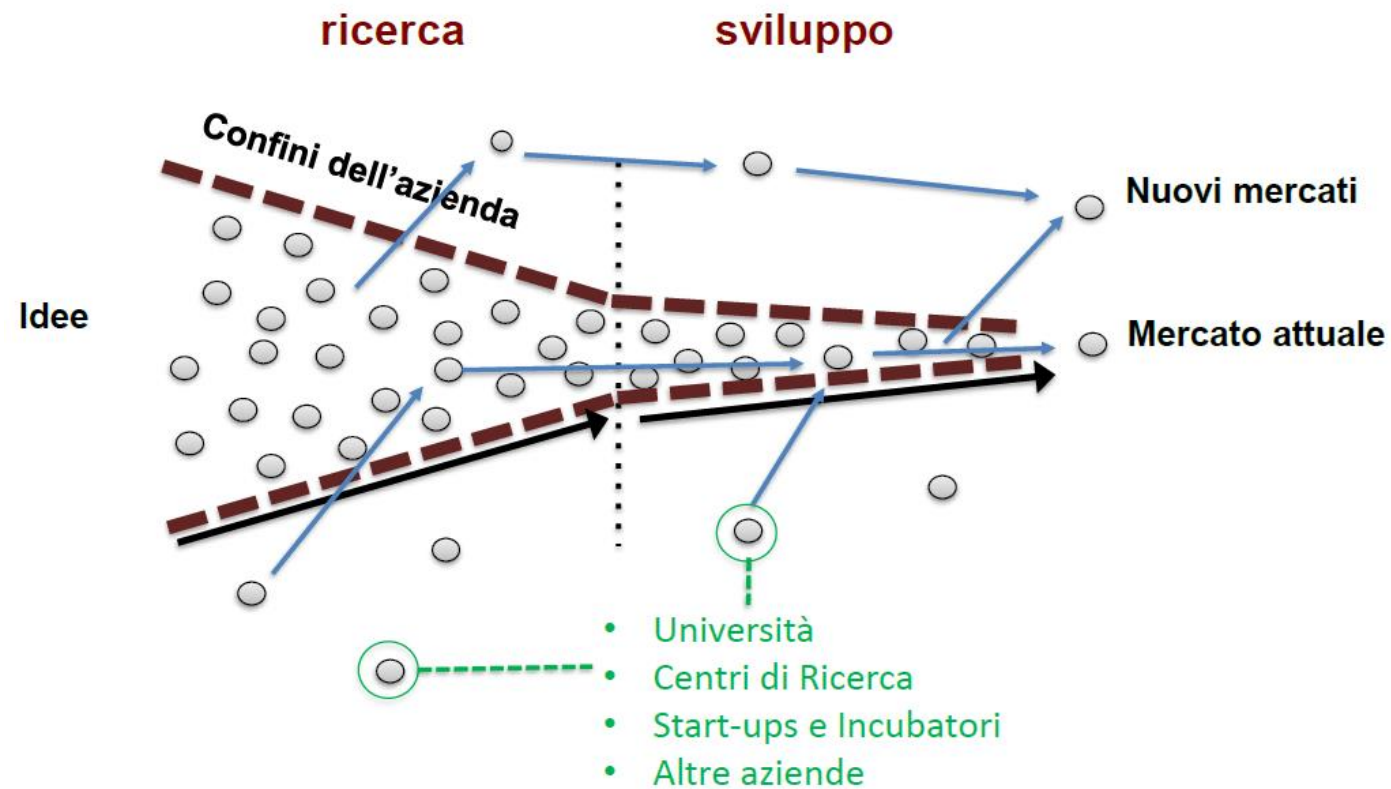

Elisabetta Bracci

Innovazione chiusa o aperta

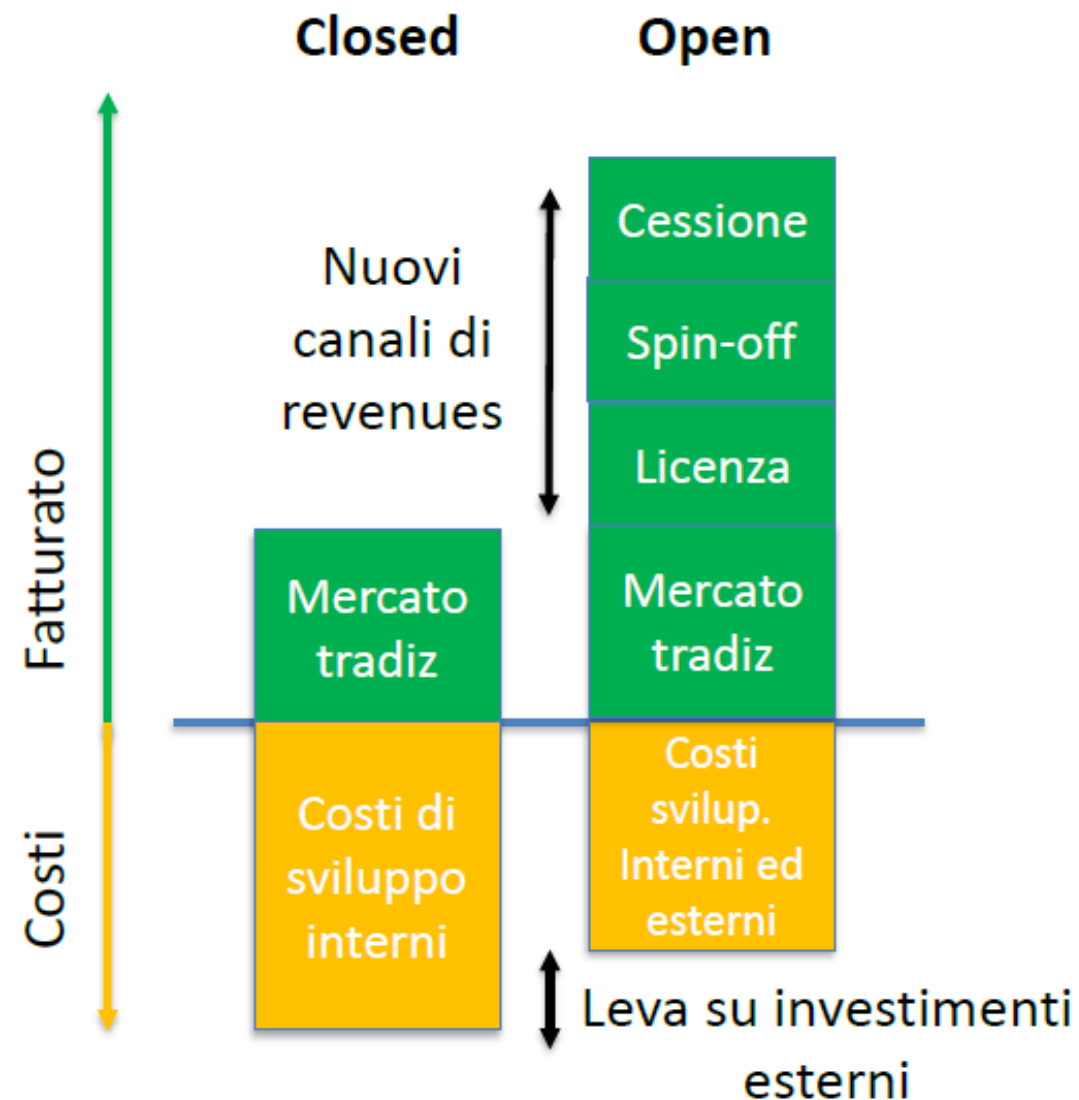

Innovazione chiusa o aperta

Innovazione chiusa o aperta

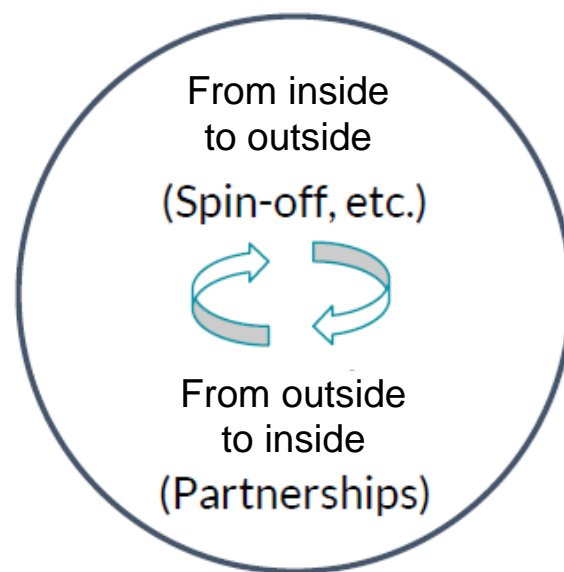

- Offset del costo dell'errore minimizzandolo
- L'errore è accettato come portatore di valore aggiunto nel percorso innovativo
- L'esperienza è condivisa e massimizzata

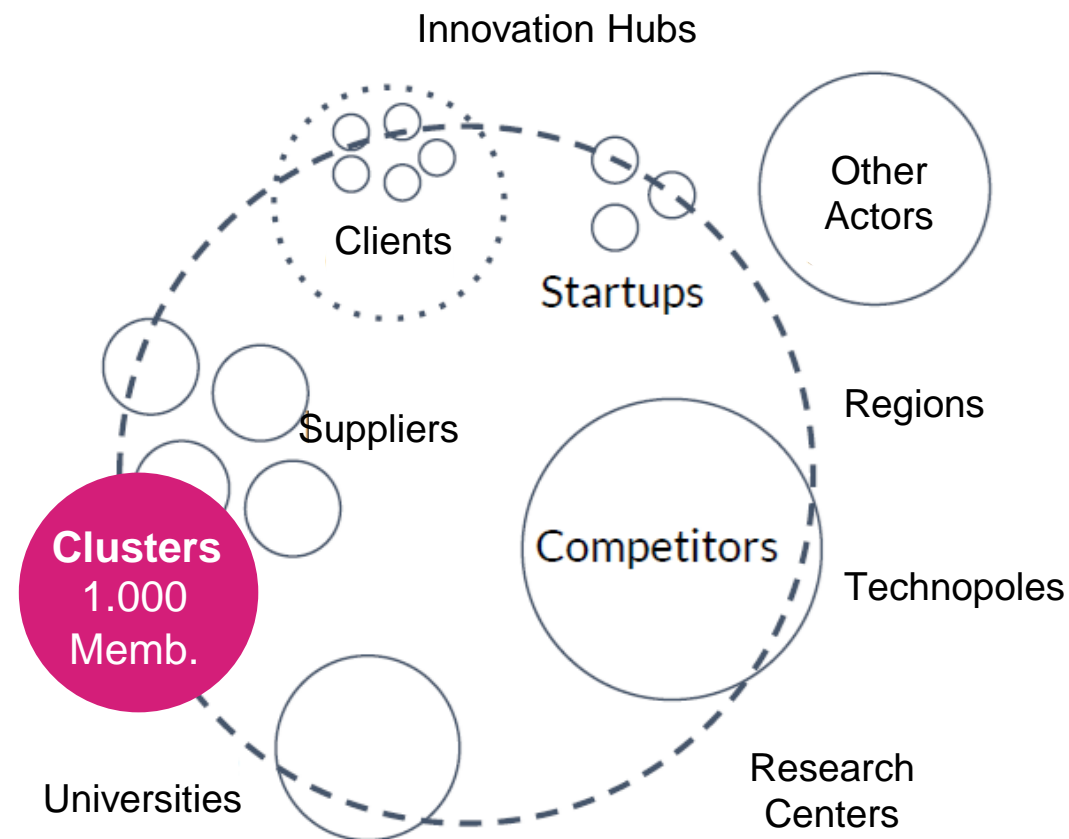

Ecosistemi di innovazione

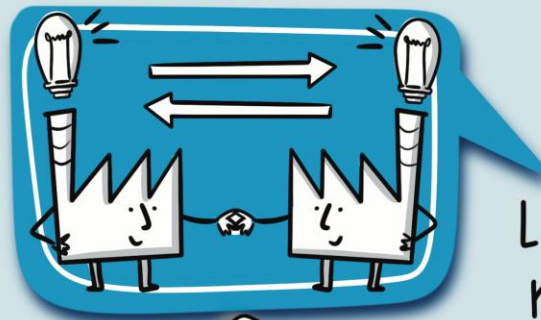

INTERNAL

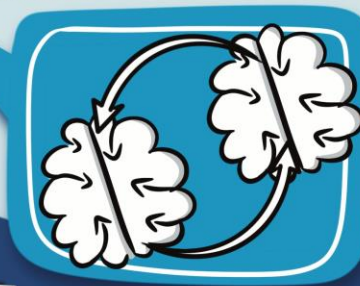

EXTERNAL

ECOSYSTEM

L'innovazione aperta è il processo di innovazione ripartito **TRA PIÙ PARTI** coinvolte e basato su una gestione dello **SCAMBIO** di conoscenze che **ATTRAVERSA** i confini dell'organizzazione, che sfrutta sia meccanismi che prescindono dalla **RETRIBUZIONE** sia quelli che comportano uno scambio di denaro in base al modello di business dell'organizzazione*

OPEN INNOVATION

* Chesbrough & M. Bogers (2014) "Explicating Open Innovation: Clarifying an Emerging Paradigm for Understanding Innovation". In H. Chesbrough, W. Vanhaverbeke, and J. West, eds. New Frontiers in Open Innovation. Oxford Scholarship Online (pp. 3-28).

- **INNOVATION CULTURE** : not to survive but to compete
- What can **I GIVE** to the ecosystem
- **KNOW THE ECOSYSTEM** , not only my competitors or clients
- Start from **NEEDS**, not from technology
- **BE OPEN**

Emilia-Romagna: innovation in its DNA

1

Emilia-Romagna is home to ancient and prestigious universities, important national research institutes, large world-leading companies, specialized and competitive small and medium-sized enterprises, and innovative start-ups.

2

An ideal environment to promote the circulation of scientific and technological knowledge and the development of businesses, people, and territories. A region that competes with the most advanced regions in the world and attracts international investments and talents. A region of excellence.

The High Technology Network

what is it?

It is the tool promoted by the Emilia-Romagna Region to organize the regional industrial research offer.

It is composed of Industrial Research Laboratories and Innovation Centres.

The High Technology Network

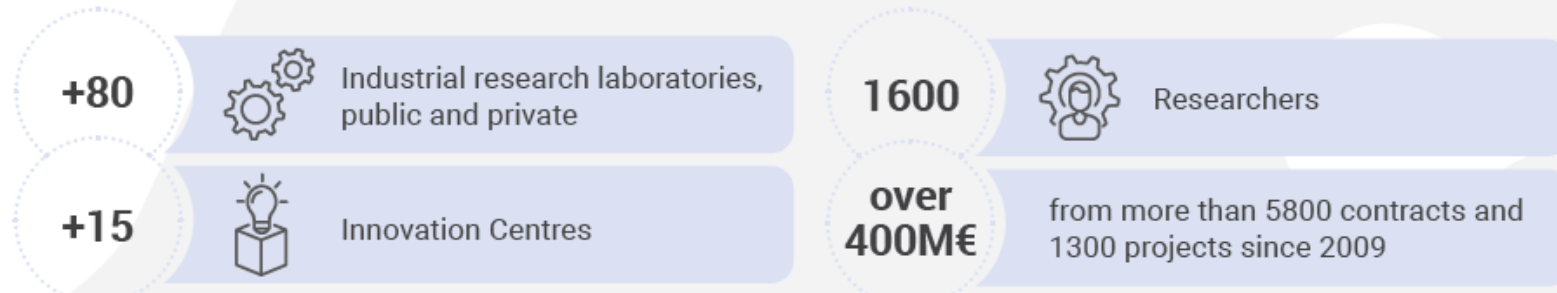

activities

It provides expertise, technologies, solutions, and equipment for business innovation.

Areas of specialization:

- Mechatronics
- Materials
- Agri-food
- Health
- Well-being
- Building and Construction
- Culture
- Digital
- Energy
- Sustainability

The Technopoles Network

what is it?

Promoted by the Emilia-Romagna Region in collaboration with regional Universities, Research Centres, and local Institutions, the Technopoles host and organize activities and services for industrial research, experimental development, and technology transfer to support innovation of companies, individuals, and the territory.

Data Valley - Emilia-Romagna

Data Valley Emilia-Romagna

Emilia-Romagna qualifies as an international **Data Valley**, boasting state-of-the-art supercomputers and data centres, unique organizations in the field of big data, policies to support new investments, and a dynamic entrepreneurial environment that aims to put Europe on par with giants such as the USA and China.

1.000+
Members

Research centres, companies and training institutions working together to share ideas, skills, tools and resources.

The **Emilia-Romagna Region** finances and collaborates with **Clust-ERs** as the subjects capable of multiplying innovation opportunities through a cooperative approach, as they focus on strategic R&D sectors.

Together with the Technopoles and the High Technology Network laboratories, we are a key player in the regional innovation ecosystem coordinated by **ART-ER**, the Emilia-Romagna consortium for innovation and technology transfer.

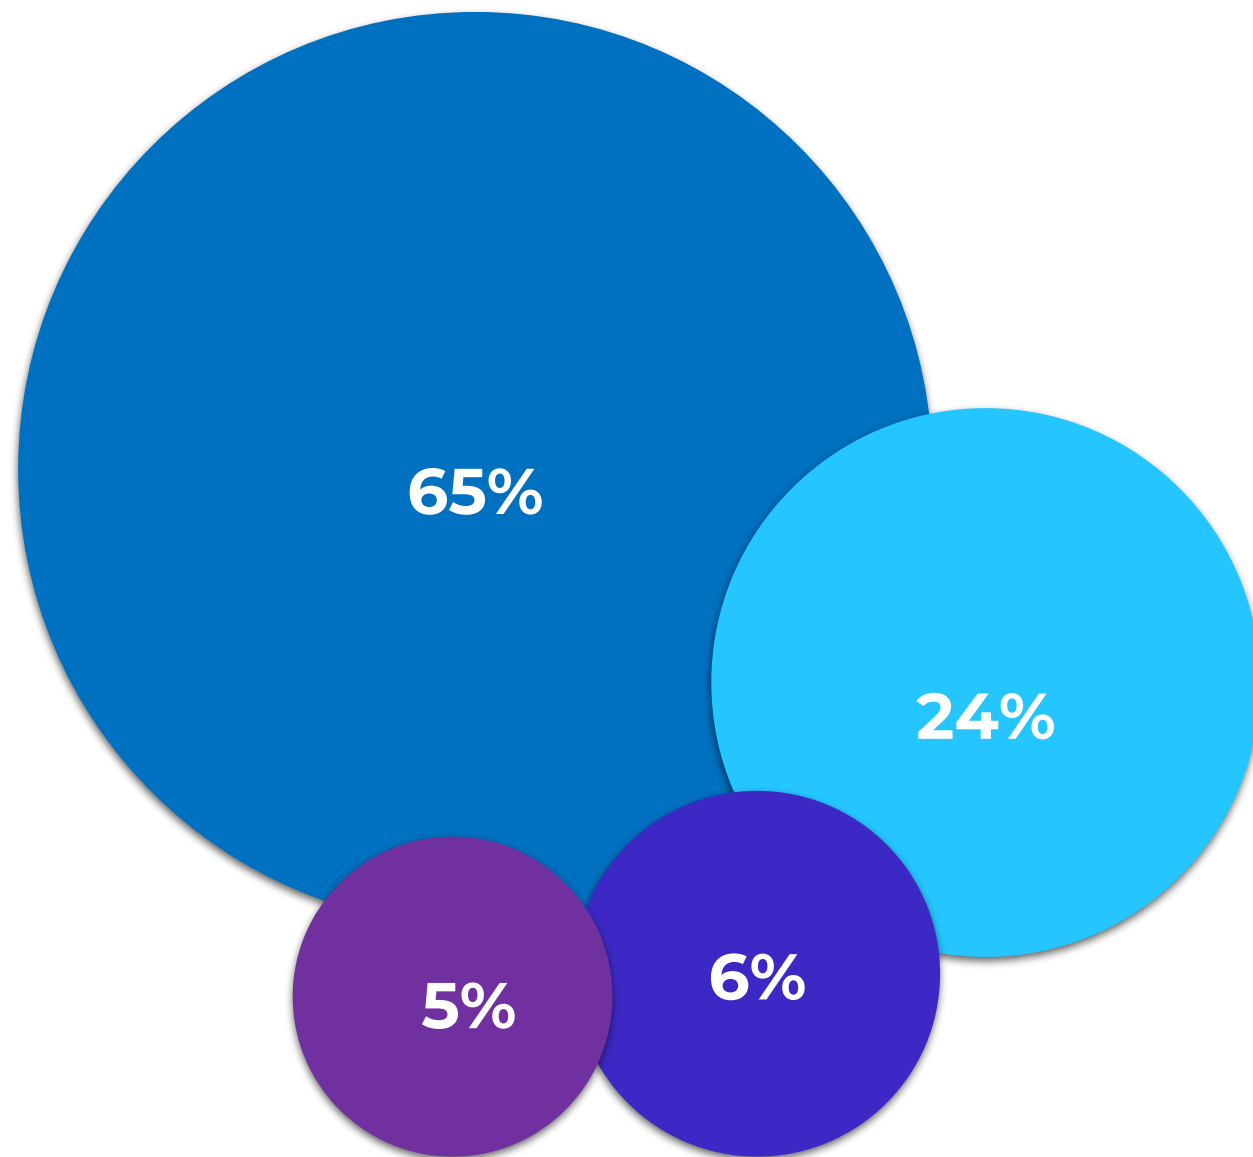

ART-ER Attractiveness Research Territory is the Emilia-Romagna Joint Stock Consortium born with the purpose of fostering the region's **sustainable growth** by developing **innovation** and **knowledge**, **attractiveness** and **internationalisation**

ART-ER promotes the internationalization of the research system through **participation in European and international networks and the development of collaborative projects**, to promote knowledge exchanges and enhance regional skills and experiences.

To increase the participation of companies and researchers in European Union funding programs and help make regional stakeholders' access to the resources deployed by Horizon 2020 more effective, we have activated an **office in Brussels** that carries out networking, partner research and strategic alliances.
